network overview

Services Network

Our vision is for healthy communities and healthy people. We do this by providing care for individuals, community, and society, improving the health and wellbeing of the communities we serve, and addressing inequality in society.

We champion universal health care and human rights and strive for health and social equity. This is what we mean when we say care for all. Care for all is achieved when all people have access to the full range of health services they need, when and where they need them, and without financial hardship.

cohealth's services network delivers strong, people-centred primary and community health care that prioritises individuals and communities experiencing inequality. Our services focus not only on preventing and treating disease and illness, but also on helping to improve wellbeing and quality of life.

The services network comprises four divisions:

- Health promotion
- Primary and community care
- Mental health, homelessness, and family violence services
- Alcohol and other drug services

position overview and purpose

cohealth's Allied Health North Program provides a range of multidisciplinary services to individuals and groups across Collingwood and Fitzroy communities.

The Podiatrist will work within a multidisciplinary team and work closely alongside medical and nursing teams to provide holistic, client-centred, and coordinated healthcare in accordance with service funding agreements.

The Podiatrist will have the knowledge and ability to treat foot-related conditions resulting from diabetes, peripheral vascular disease, and other high-risk foot complications.

A key approach in the management of these conditions is the utilisation of health education, illness prevention strategies, and chronic disease management. This includes a focus on educating and empowering clients to adopt self-management strategies to improve their health which is underpinned by health literacy principles.

Using a strengths-based approach cohealth Podiatrists will collaborate with clients, their carers, and other service providers, to develop meaningful care plans to support clients to work towards their goals.

This position is based at Collingwood but may be required to work across other cohealth sites from time to time or to change sites.
